### Objective

To work in an environment that encourages me to succeed and grow professionally and where I can utilize my skills and knowledge appropriately to become a Software Developer in Test (SDET).

### Experience

#### Kobo360

December 2021 - Present

Software Tester

- Work with DevOps team to manage test CI/CD pipeline
- Experience working in Agile/Scrum environment, participating in sprint planning, daily stand-ups, sprint and retrospective.
- Effective communication skills, collaborating with developers product managers, and other stakeholders to ensure a understanding of the requirements, issues and resolutions.
- Ability to analyse complex scenarios, identify root causes of issues, and propose effective solutions to improve product quality.
- A willingness to stay updated with the latest QA methodologies, tools and technologies through self-learning, training, and participation in industry events and forums.
- Create and maintain the test automation codebase using Cucumber framework for Cypress, catering for both Mobile and Web Applications.
- Analyze bugs and errors found during tests
- Document results of test for the software development team.
- Recommend improvement in software to enhance user experience.
- Motivate the development process for efficiency and performance.
- Work together with the software developer to enhance and improve programs.
- Research and compare similar competitor products.
- Maintain updated knowledge of industry trends and advancement.

#### INDICINA

June 2021 - December 2021

Qa Engineer

- Perform manual and automation testing using Postman, Cypress (BDD).
- Generate, review, and update test automation scripts across all platforms.
- Manage issues/complaints coming from business.
- Work with the DevOps teams to manage test CI/CD pipelines.
- Present test summary and bug report after testing exercise.
- Communicate with developers, track, and report defeat.
- Participate in product review meetings and give recommendations.

#### MONNIPLY

November 2019 - June 2021

Software Tester

- Reviewing Software requirements and preparing test scenarios
- Executing tests on software usability.
- Analyzing test results on database impact, errors or bugs, and usability.
- Preparing reports on all aspects related to the software testing carried out and reporting to the design team
- Participating in design reviews and providing input on requirements, product design, and potential problems.

## ZURI INT'L

March 2019 - November 2019

QA Engineer Intern

- Document and test new software application
- Test Case Documentation
- Communicate with developers, track, and report defeats.
- Manage issues/complaints coming from the business

## Education

ESTAM University, Benin

2020

Computer Science

2.1

## Skills

- Software Quality Assurance
- Cypress.io ui test automation
- API Testing with Postman and Newman
- Mocha and Cucumber framework
- Manual testing
- JavaScript
- Attention to details
- WebdriverIO (WDIO)
- Performance test(K6)

## Languages

English (Fluent)

## Personal Details

- Nationality : Nigerian
- Gender : Female

## Additional Information

- Experience in both Automated and Manual Testing of UI and functional aspects of Client - server and web based Applications on multiple levels of SDLC and Software Testing Life Cycle (STLC)
- Expertise in creating test scripts for web applications using Selenium We driver, Cypress with Java and JavaScript Technologies
- Experience in Mobile testing using Appium with Selenium
- Experience with API testing Automation using Postman, Newman and GraphQL
- Experience performing cross browser testing
- Knowledge of Continuous Integration/Continuous Deployment
- Experience in database like MySQL, Mongdb, Rancher, and Grafana
- Experience using TestRail, JIRA, ZOHO, and Trello boards for global test management, bug tracking and reporting.
- Experience with multiple operating system environments including MacOS, LINUX, and Windows
- Experience with Load/Performance Test using K6
- Experience in using GIT and Jenkins for building efficient CI/CD Pipelines
- Experience with Behavioural Driven test(BDD) using RestAssured
